Target Participants:  
**All Oro Valley**

**Q1** COVID vaccinations are ongoing in Oro Valley/Pima County. COVID vaccines are free, and everyone age 16 and older is now eligible to get one. The Town of Oro Valley doesn't manage any vaccine operations but your input will help Pima County and the State of Arizona, who do.

Prior to reading this, which of the following describe what you knew about COVID vaccinations in our area? (Choose all that apply)

(523 responses by locals)

Options	Locals (523)
I didn't know COVID vaccinations were available for everyone age 16+	4.0% (21)
I didn't know COVID vaccinations were free	2.7% (14)
I knew vaccinations were available for everyone age 16+ and that they were free	93.9% (491)
I thought the Town of Oro Valley offered vaccinations	2.9% (15)

**Q2** Which of the following best describes your plan to get a COVID vaccination?

(543 responses by locals)

Options	Locals (543)
I already got vaccinated (at least one shot)	90.1% (489)
I have an appointment but no vaccination yet	0.2% (1)
I've tried to make an appointment but haven't been successful yet	0.2% (1)
I'll get vaccinated but haven't tried to make an appointment yet	0.6% (3)

Options	Locals (543)
I'll probably get vaccinated at some point	0.7% (4)
I probably won't get vaccinated	3.1% (17)
I definitely won't get vaccinated	3.7% (20)
Not Sure	1.1% (6)

**Q3** Which of the following describe your experience making an appointment? (Choose all that apply, if any)  
 (472 responses by locals)

Options	Locals (472)
I got my appointment through Pima County and it was easy to make	25.8% (122)
I got my appointment through Pima County but it was hard to make	14.4% (68)
I tried making an appointment through Pima County but had difficulties and gave up	11.9% (56)
I got my appointment through a drug/grocery/other store and it was easy to make	18.0% (85)
I got my appointment through a drug/grocery/other store but it was hard to make	5.9% (28)
I tried multiple attempts or providers before I found an appointment that worked	21.6% (102)
I would have signed up sooner if the vaccination location was closer or easier to get to	4.7% (22)
I would have signed up sooner if it was easier to make an appointment	8.9% (42)
I had a hard time with:	12.3% (58)

Following completing on line registration forms and calling, never received communications back.

I went to Phoenix

Lack of Information: KOLD 13 has THE best information. I got vaccinated at PHX State Farm Stadium.

Azpods.com

The software used did not function with Apple products. After signing up, trying numerous times, w

OV giving \$ to businesses with questionable Covid mitigation impact instead of promoting vaccinatio

Getting an appointment

Pima Co. sign-up, being online at least 30 HOURS before getting husband's app't.; 48 HOURS for mine

Long delay at UofA state site. It took me 1 1/2 hrs to get through the drive through

The website didn't store my information, couldnt refresh the page, went to Phoenix, it was great!!

i received my vaccine from the VA. It was not hard to schedule

Got my shots in Phoenix. Could not get in in Pima county.

I got my vaccination from a different organization.

Making a website appt. finally got one in Phoenix!

Online site was terrible! PCAO got me in, since I volunteer with their Victim Services.

getting my spouse an appointment due to her age of 69 at that time.

Got my vaccination thru the VA and it was easy and free.

waited for my designated group. Immune compromised should've have avail appointments FIRST.

Websites crashing due to high number of people trying to book at same time

Getting J&J vaccine

My wife and I both got our vaccinations at Cardinal Stadium because Pima County was always behind.

Appointments not available... I was told to try again in the evening...they close at 5.....duh

Pima website is terrible, we used azdhs to book our appointments in pima

TMC

Scheduling my 2nd appointment within the 4-6 week window.

computer software and requests for information that I did not have readily at hand

I volunteered at State Farm Stadium & we're fully vaccinated

Getting appointments on numerous websites. Was prompted through a message at next door app of avai

i went state farm stadium and got phizer there. pima county was badly run as compared to maricopa

Website/ email registration was an awful experience.

Finding appointments for 55 and older. Drove to Maricopa County to get my shot. Pima County slow

My wife did it for me.

Using state and country appt sites. Ended up going through my healthcare provider

that elusive appt. We had much success snapping the qr code on KOLD taking us to the state pod at

I was in the J&J study

**Q4** Which of the following are the main reasons you would get vaccinated? (You can choose up to FOUR)

(21 responses by locals)

**Options**

**Locals (21)**

Options	Locals (21)
I want to protect my health/survival	57.1% (12)
I want to protect high-risk family members or loved ones from COVID-19	38.1% (8)
I want my life to get back to normal	38.1% (8)
I want to help our community get back to normal	52.4% (11)
I want to be able to safely visit with friends and family	38.1% (8)
I want to stop worrying about getting or spreading COVID	42.9% (9)
Other:	4.8% (1)

to comply with va

**Q5** Which of the following are the main reasons you would NOT get the vaccine? (You can choose up to FOUR)

(39 responses by locals)

Options	Locals (39)
I've already had COVID	15.4% (6)
Not sure the vaccine will work	15.4% (6)
Not sure about vaccine safety/side effects	64.1% (25)
Time and effort to get the appointment and vaccine	2.6% (1)
I want to see how others react to the vaccine first	17.9% (7)
I don't think COVID-19 is a real concern	12.8% (5)
I'm against all vaccines	5.1% (2)
I don't think I'm at serious risk	28.2% (11)
Other:	28.2% (11)

side effects works  
 use vaccine  
 zinc immune

I find no urgency.

Too many long term risk factors for so little protection and then need again and again.

Have medical issue that will keep me from being vaccinated

HCQ works in many other countries & use that along with D & zinc. Big pharma & Gates have done well

Too much misinformation out there.

Vaccines were rushed to production, will wait and see how this sorts out and then make a decision.

Alternative-ivermectin found safe and very effective for prophylaxis and treatment

Not FDA "approved" - emergency use authorization

My spouse has had COVID; I have autoimmune disease so unsure of vaccine side effects for me.

There are horrible side effects still being reported, including blood clots, strokes & death

**Q6** Which of the following would make you more likely to get the vaccine, or get it sooner?  
 (Choose all that apply)

(50 responses by locals)

Options	Locals (50)
Talking with people who have been vaccinated to make sure it's safe	6.0% (3)
Additional scientific studies and research that show it's safe	32.0% (16)
Making it easier for me to sign up for an appointment	8.0% (4)
Providing a drop-in location instead of having to schedule an appointment	10.0% (5)
Making vaccinations available somewhere I already go or that is easier to get to	8.0% (4)
Only having to get 1 dose/shot instead of 2	14.0% (7)

Options	Locals (50)
If I didn't need to provide a photo ID	4.0% (2)
None of these would make me more likely to get the vaccine	40.0% (20)
I would be more likely to get the vaccine if:	18.0% (9)

# testing covid vaccine

It was proven to prevent Covid and no side eff

It didn't use aborted fetal tissue in development or testing.

If I were scared of getting Covid.

Undergoing chemo treatments. Advised to wait for immune system to recover

It had been created with same type of science as other vaccines not experimental with RNA, etc

When the FDA has completed its testing on the vaccine

If my family or I was at high risk of dying or being hospitalized from covid

If it weren't so political, with celebrities pressuring people to get it.

Results of long-term study on my particular demographic to show no complications; ingredients list.

Q7 Last question... Which of the following have you used to get information about the COVID-19 vaccine? (Choose all that apply)

(512 responses by locals)

Options	Locals (512)
TV or radio news	53.9% (276)
News websites or printed newspapers	55.5% (284)

Options	Locals (512)
The State of Arizona website (azdhs.gov/covid19)	46.3% (237)
Pima County website (pima.gov)	50.4% (258)
Town of Oro Valley website (orovalleyaz.gov)	6.4% (33)
Social media (Facebook, Twitter, Nextdoor, Instagram, etc)	14.8% (76)
Talking to friends or family	41.6% (213)
Talking to my healthcare provider	18.2% (93)
Other:	11.9% (61)
